**DATE:** August 2003

**TO:** Auditors of Montana School Districts

**FROM:** Jim Oberembt

Fiscal Officer Supervisor

Auditors: Want to be on OPI's monthly e-mail list to receive School Finance memos? Please email a message to ncarte@state.mt.us. (If you received this memo by email, you're on our list already!)

RE: SCHOOL DISTRICT AUDITS FOR FY 2002-03

The purpose of this memo is to help you in your school district audits by answering some commonly asked questions and listing problems we need your assistance on. Please call Jim Oberembt at 444-1257, Joan Anderson at 444-1960 or Mike Waterman at 444-4524, if you have questions about this memo or any other area of school district budgeting and accounting.

#### Enclosed:

APPENDIX AEnrollment / ANB and Attendance

**APPENDIX BPupil Transportation** 

APPENDIX C Non-Levy Revenues

APPENDIX D Matrix - Payments between Districts and Special Ed Cooperatives

APPENDIX ECash Advance Request Form

APPENDIX F ARM 10.10.303 - Cost Allocations

APPENDIX G Excess Reserve Changes From FY02 to FY03 Budgets
APPENDIX H Summary: Administrative Rules – Changes Effective FY03

APPENDIX I List of common audit findings

APPENDIX J Federal/State Grant Control Record

APPENDIX KBudget and Cash Transfers

APPENDIX L Attorney General Opinion Request Regarding Transfers from the Bus

**Depreciation Fund** 

APPENDIX M OPI Publications http://www.opi.state.mt.us/schoolfinance/forms.html

APPENDIX N List of Districts Requiring GASB 34 Audits for FY03

# WE REQUEST YOUR SPECIAL ATTENTION IN THESE AREAS DURING YOUR AUDITS FOR FY 2002-03:

1. BE SURE TO SEND A COPY OF THE AUDIT TO OPI.

#### 2. RECORDS RETENTION SCHEDULE

The official records retention schedule for schools ("Schedule No. 7") is available in hard copy or electronic form. If you need a hard copy, call Nica Carte at 444-4401. For an

electronic copy, go to http://sos.state.mt.us/Assets/records/sched7.pdf.

#### 3. REQUEST FOR INFORMATION - STANDARD AUDIT CONTRACT

Please request information on budget changes or potential problems for a district or cooperative you plan to audit by sending written requests to: Joan Anderson, OPI, Box 202501, Helena, MT 59620-2501, or fax to (406) 444-0509. This step is required by the standard audit contract. You can list multiple schools on one request. Please allow two weeks for response.

You can also request a verification of federal and state grant program receipts.

#### 4. EXIT CONFERENCE

OPI recommends that the auditor meet with the trustees, district superintendent, and clerk of the school district to present the audit report upon completion. Often when OPI contacts the board to follow-up on the status of corrective actions, trustees say they were unaware that any problems were identified in the audit. In some cases, trustees have even stated they were not aware an audit was done. By holding a conference to discuss findings with the board, you can help the district resolve any issues you have discovered, and at the same time, strengthen your relationship with the district.

#### 5. ELEMENTARY VS. HIGH SCHOOL EXPENDITURES

Please watch for high school general fund costs being inappropriately charged to elementary general funds, and vice versa. Elementary budgets tend to be more "flush" than high school budgets in some areas, causing the motivation to charge costs to the district that has the most flexible budget. As always, it is acceptable to prorate shared costs, such as administrator's payroll, counselors, maintenance and operations of shared facilities, etc. on a cost allocation basis (see ARM 10.10.301 - APPENDIX F). However, payroll for teachers who work 100% in one school must be charged to that school. Proration of costs based on time is only appropriate when services are shared between elementary and high school.

#### 6. REPORT COVERS

- a) If possible, please list the school district's common name (e.g., Cottonwood School).
- b) If your organization has multiple offices in the state, please identify on the Report Cover or Transmittal Letter which office did the audit (include telephone number) so we know who to contact with questions.

#### 7. SEPARATE AUDIT COMMENT LETTERS

Please report all comments, including any findings disclosed in a "management letter," in the audit report as required by the standard audit contract. The district is required by law to respond to all audit findings, including items discussed in a management letter.

#### 8. AUDIT FINDINGS

Please include enough information in an audit finding/recommendation to allow us to understand the comparative scope of the problem. For example, finding one instance of an

inappropriate travel reimbursement out of 20 is different than finding that travel reimbursements in general are incorrect or that board policy for travel reimbursement does not comply with state laws. In the audit finding, please cite the law, administrative rule, accounting manual section, etc. being violated.

#### 9. AUDIT RESPONSE

Please include the district's audit response in the audit report if possible. By law, our office must review and accept the district's responses to audit findings. If the response is included in the audit report, this indicates the board's response is official. When we receive a letter later from a clerk, it may or may not be the official board response and slows the process down in some cases.

When coaching district officials how to respond, encourage them to list specific corrective actions rather than using general statements such as, "We concur with the audit finding." This is increasingly important because we are track findings and requiring more thorough responses about corrective actions for repeat findings.

#### 10. FEDERAL PROGRAMS

#### a) GRANTS HANDBOOK - 2002 EDITION

OPI publishes the <u>Grants Handbook</u> for recipients of OPI grants. The <u>Grants Handbook</u> is available on the OPI website at <a href="http://www.opi.state.mt.us/PDF/FEDprgms/Handbook.pdf">http://www.opi.state.mt.us/PDF/FEDprgms/Handbook.pdf</a>.

In general, any OPI-administered program that is assigned a project number is a "grant" for purposes of policies included in this manual. School Foods programs and entitlements, such as the Drivers' Education Reimbursement and Federal Impact Aid, are not covered.

#### b) <u>GRANT CASH MANAGEMENT</u>

OPI sends one payment on the 10<sup>th</sup> of each month for grant funds. For each state or federal grant, the recipient submits an Annual Cash Advance Request Form to OPI indicating the amount they wish to receive each month. (See APPENDIX E) The recipient may amend the request as often as necessary by sending a revised form. Revisions received by the 25th of one month will affect the payment on the 10th of the following month (e.g., revised forms received by April 25 affect payments made on May 10).

Schools and school-related entities are expected to maintain minimal cash balances in grant accounts in compliance with Federal regulations. To meet that requirement, <u>OPI considers it reasonable for a school district to have no more cash on hand at any time than needed to pay obligations through the following payment date, which is the 10th of the next month. Recipients are expected to review their cash request periodically and revise the schedule as necessary to maintain minimal cash on hand.</u>

#### Questions to address during audit:

- Do the recipient's procedures include periodic monitoring of cash balances?
- Has the entity revised their cash requests (Cash Advance Request Form) as necessary to avoid excessive cash balances?
- Are month-end cash balances for each project approximately enough to cover an average month's obligations, and no more?

Is the entity <u>aware</u> that minimal cash balances are required?

#### c) <u>LATE A-133 AUDITS</u>

If a school district spent more than \$300,000 in federal funds in FY2003, an A133 audit must be completed by March 31, 2004. If this deadline can't be met, the school its auditor must request an extension from the U.S. Dept of Education. The request should:

- be on letterhead stationary or include the information normally found on letterhead including mailing address, phone and fax numbers, and e-mail address
- 2. include the district name, name and title of person making request, EIN, and fiscal year of audit for which extension is required
- 2. provide a brief explanation why the March 31st due date can't be met; and
- 3. ask for an extension of audit completion date and state an anticipated completion date.

Although the Department of Education prefers email, they will accept mailed, faxed, or emailed requests. Send your extension request to:

Post Audit Group
Office of the Chief Financial Officer
U.S. Dept of Education
Washington, DC 20202-4245

Fax: 202-401-1198 Phone: 202-401-1823

E-mail address: <a href="mailto:pat.dever@ed.gov">pat.dever@ed.gov</a>

Also, please send a copy of your request for an extension to OPI and the Local Government Services. If a school district has a two-year audit, they must be audited as "high risk" and might incur higher audit costs. A two-year A-133 audit covering FY02 and FY03 is due March 31, 2004.

#### d) GRANT REPORTS INCORRECTLY FILED

If a federal or state grant report has been filed incorrectly with OPI, please recommend the school district file an amended report.

#### e) FREQUENT CASH OVERDRAFTS

If a school district has frequent cash overdrafts in one or more grants, please recommend they establish a grant control notebook as discussed in Section 9-0400 of the <u>School Accounting Manual</u>. Schools should also consider software changes that will automatically alert the clerk that a grant is in the cash overdraft position.

Additionally, OPI offers an Excel spreadsheet to help clerks manage and reconcile grant cash. You can find this form on OPI's website. The direct address for the form is: http://www.opi.state.mt.us/PDF/SchoolFinance/Acct/GrantProjRecapWkst.xls.

#### f) INDIRECT COST RECOVERIES

Please review the indirect cost rate application for FY03. School districts may take indirects on grants ONLY IF they have an approved rate from OPI. Check to see if the school district has adequate documentation for reclassifying an expenditure as indirect on the indirect cost rate application. Check to see that the school district applied the rate to actual expenditures, less capital outlay incurred after the date of the rate's approval. If the rate has been incorrectly calculated or applied, this could result in the school district having to repay funds. Please contact Jim Oberembt at 444-1257 for approved rates and more information on indirect costs.

#### g) <u>MAINTENANCE OF EFFORT</u>

OPI monitors maintenance of effort for Federal Impact Aid, Title II, Title III, Title IV, Title VI, and IDEA programs. OPI relies on auditors to watch for coding errors that can affect maintenance of effort. However, additional verification of maintenance of effort is not necessary for OPI-administered programs.

#### h) OPI'S MONITORING OF FEDERAL AND STATE GRANTS

OPI's monitoring policy is found in the <u>Grant Handbook</u>, section 600-4. Most recipients of OPI-administered grants report expenditures only once in a year-end fiscal report. Cash is requested on an annual cash request form, which may be amended at any time. However, if the entity meets certain "high risk" criteria, they will be required to submit monthly expenditure and cash reports or may possibly be put on a reimbursement basis. Contact Mike Waterman for a list of districts currently on "high risk" status with OPI.

#### i) FEDERAL/STATE GRANT CONTROL RECORD (see Appendix J)

OPI's grant policy now requires subgrantees to maintain a centralized grant file in the business office. (Grants Handbook, page 400-11). The recommended format for the grant control record is included in Appendix J.

#### j) <u>TERMINATION/SEVERANCE PAY-CANNOT BE CHARGED DIRECTLY TO</u> GRANTS

OMB Circular A-87 requires termination and severance pay be paid as general administrative costs and **not as a direct cost** to any grant. Accordingly, termination and severance pay should be paid from the general fund or the indirect cost pool in the Miscellaneous Programs Fund 15. School districts should include all termination and severance pay as indirect costs when applying for an indirect cost rate. The resulting higher rate should increase the amount available in the indirect cost pool to pay the termination and severance pay.

## k) <u>GRANT WRITER COSTS – CANNOT BE CHARGED DIRECTLY TO GRANTS UNLESS PREAPPROVED</u>

OMB Circular A-87 requires grant writing costs charged directly to a grant be approved IN ADVANCE by the granting agency. Otherwise, grant writing costs must be included in the indirect cost calculation. This means a grant writer may be paid from the General Fund and then shown as an indirect cost when the indirect cost rate is calculated. As indirect costs are recovered during the grant period, a grant writer may be paid from these recoveries. Grant writers may not receive a percentage fee or flat fee DIRECTLY from a grant (e.g. 5% of the

grant award) unless prior approval has been given by the granting agency.

#### **BUDGET**

#### ITEMS TO CHECK WHEN AUDITING THE BUDGET

#### OPI extensively edits the budget forms. Items we check are:

- accuracy of calculations;
- budget growth limits in the general fund;
- legal reserve percentages in all funds;
- adequacy of budgeted revenue sources for funding the adopted fund budgets;
- actual mills levied by the county commissioners for the district compared to budgeted mills; and
- accuracy of anticipated state funding amounts such as the Guaranteed Tax Base subsidy, direct state aid, and special education payments.

#### In general the items on the budget we need you to check are:

# 11. FUND BALANCE AND EXCESS RESERVES IN GENERAL FUND (See APPENDIX G)

#### **12. ENROLLMENT/ANB AND ATTENDANCE** (See APPENDIX A)

#### 13. 180 DAYS AND MINIMUM 1080 HOURS OF INSTRUCTION

Please verify the district conducted the minimum of 180 pupil instruction (calendar) days and minimum hours required by MCA 20-1-301. State funding must be adjusted for days not conducted. This issue helps the state maintain minimum accreditation standards. If the district did not conduct the minimum days and hours of instruction, please disclose this as an audit finding.

#### 14. BUDGETS

#### a) OVERDRAFTS

State law requires individual districts to spend within adopted budget limits. Audits usually combine the elementary and high school general fund in one column. However, if either the elementary OR high school adopted general fund is overspent, please cite this as a compliance finding. OPI must obtain an explanation of the overdrafts from the entity and determine that internal controls will be put into place to avoid overdrafts in the future.

#### b) VOTED AMOUNTS

Please confirm the district held an election to approve the following: 1) the amount listed on the Final Budget, General Fund Limits & Reserves page, Part II, Line L "Amount Approved on Ballot by Voters." The law strictly limits general fund budgets and voted amounts; 2) the Technology Fund (28) tax levy. Voters must approve the levy <u>one</u> time and the district may levy up to 20% of the original cost of "technology equipment, including computers and computer network access." (20-9-533, MCA); and 3) Flexibility Fund (29) tax levy, up to 25%

of the estimated state flexibility allocation. An election certificate should be available to verify the voted amount used on the final budget form.

#### **15. NON-LEVY REVENUES** (See APPENDIX C)

See "Items to Check When Auditing Trustees' Financial Summary."

# **16. BUDGET AMENDMENTS** – (20-9-161 through 167, MCA) **BUDGET TRANSFERS** – (20-9-208)

Please verify that any budget amendment adopted is allowable under 20-9-161, MCA, and that appropriate adoption procedures were followed. OPI authorizes budget amendments for increased enrollment but others are passed at the discretion of trustees. Check to make sure the district has used the project reporter assigned by OPI to the budget amendment on the Trustees' Financial Summary. To help you, a budget amendment procedures packet and information on budget amendments the district has filed are available from OPI. Call Mike Waterman at 444-4524 or Nica Carte at 444-4401.

If a district transferred budget authority from one fund to another, please verify a hearing was held as required by 20-9-208, MCA. See Item 25 below for cash transfers.

#### 17. BUS DEPRECIATION FUND (See APPENDIX B)

#### 18. RETIREMENT FUND

#### a) REASONABLENESS OF BUDGET AMOUNT/OVERBUDGETING

Please verify the retirement fund budget was reasonably set based on budgeted salaries. We have noticed some districts spend only a portion of the budget. This indicates they may be overbudgeting expenditures, which may result in state overpayment of Guaranteed Tax Base subsidies in the countywide retirement fund.

# b) <u>RETIREMENT INCENTIVES, PAYOFFS, "BUYING YEARS" FOR EMPLOYEES</u> There seems to be a widespread misconception about this issue. The retirement fund can only be used to pay REQUIRED employer contributions to TRS and PERS. There is no statutory authority for a district to charge the retirement fund, which is funded by a countywide levy, to pay additional employee contributions. The retirement fund cannot be used to pay for contributions to the PERS or TRS in lieu of an employee's contribution. The fund cannot be used to "buy years" of service for an employee as a benefit.

"Additional employee contributions" to TRS and PERS may be funded either through payroll deductions or charges to the general fund. When paid by the district, additional employee contributions are a taxable benefit.

Please verify that "additional employee contributions" paid to TRS and PERS by a school or cooperative are either deducted from the employees' payroll, paid by the general fund, or paid by another fund used to pay the normal payroll of the employee. Recommend the district repay the retirement fund for any inappropriate expenditures by using the general fund or other appropriate fund.

#### c) <u>SOCIAL SECURITY</u>

Just a reminder to check the social security option elected by the school district. See the Local Government Services audit compliance supplement for more information.

#### ITEMS TO CHECK WHEN AUDITING TRUSTEES' FINANCIAL SUMMARY

#### 19. DEBT SERVICE FUND

- a) As of 6/30/01, 20-9-443, MCA, provides that districts may close an obsolete debt service fund after all bonds, interest, fees and SIDs are paid. The balance of the fund may be closed into the building reserve fund (61), technology fund (28), or general fund (01) and used for the same purpose as original bond issue. The transferred money must be used for constructing, equipping or enlarging school buildings or purchasing land. (MCA 20-9-443 and A.R.M. 10.10.319 (3))
- b) Please encourage districts to budget the principal and interest shown on the bond payment schedule for each fiscal year.
- c) Please encourage districts to hold operating reserves <u>only</u> if the payments due July 1 and December 1 are budgeted in the ensuing year. Contact Bonnie Maze at 444-3249 or <u>bmaze@state.mt.us</u>, if you have questions.

#### 20. SPECIAL EDUCATION

- a) EXPENDITURE CODING (special education expenditure program 280)
  - i) Coding of expenditures on the Trustees' Financial Summary (TFS) affects many types of state and federal funding. Please pay special attention to special education expenditures coded using program code 280, since overstatement of expenditures in the special education area may result in state overpayment of state special education funding. Understatement of expenditures may result in inappropriate special education reversion (refund to state).
  - ii) Federal regulations require schools to maintain effort in special education programs. This means schools must spend the same amount of state and local funds this year as last year. OPI monitors maintenance of effort.
  - iii) Please write up miscodings, especially when miscoding is widespread. Amended TFS may be submitted up to December 20<sup>th</sup>.
- b) RESOURCE TRANSFERS FROM COOP TO DISTRICT (See APPENDIX D) Please verify that any resource transfer between a special education cooperative and a school district is recorded as listed in APPENDIX D.
- **21. USDA DONATED COMMODITIES** (OPI will post on our website each August) The Local Government Audit Quality Control Committee of MT Society of CPAs recommends:
- a) <u>Commodities USED</u>
  - i) <u>Audit Report</u> Show commodities used as a revenue and expenditure in the school food fund on school district financial statements. Most districts use the material portion of commodities received during the year. Either report commodities used as federal assistance, or footnote the value of commodities received on the schedule of

Federal financial assistance in the audit report.

- ii) <u>Trustees' Financial Summary</u> should ignore the commodities used.
- b) <u>Commodities inventories</u> are the property of the Office of Public Instruction until used and are reported in the audit report of that agency.
  - i) <u>Audit Report</u> School districts' commodities inventories **should not be reported** as district property on the audit report of a school district.
  - ii) <u>Trustees' Financial Summary</u> Commodities inventories should not be reported on the Trustees' Financial Summary.

#### 22. TRUSTEES' FINANCIAL SUMMARY CHANGES

#### a) <u>DEADLINES FOR ACCEPTING CHANGES</u>

OPI will accept most TFS changes until December 20. After that date, districts must report changes as prior year adjustments on the next year's report.

#### b) CHANGES TO BUDGETED FUNDS

After the levies are set (usually the 4<sup>th</sup> Monday in August, billed in October), OPI cannot record TFS changes that result in an increase or decrease in fund balance for a budgeted fund. We will keep amended pages on file but schools are required to report fund balance changes as prior period revenue or expenditure adjustments (PPA) in the ensuing fiscal year.

#### c) PRIOR PERIOD ADJUSTMENTS

Remember that prior year expenditure adjustments are recorded as 6100 PPA Revenue if the adjustment would reduce prior year expenditures and Object 892 PPA Expenditures if prior year expenditures would increase. Object 892 expenditures are charged to the current year budget, since they were not charged the previous year.

#### 23. NON-LEVY REVENUES (See APPENDIX C)

- a) OPI is able to ensure the general fund non-levy revenues reported on the Trustees' Financial Summary for one year are used in budgeting for the next year if required by law. However, we need auditors to check the validity of coding used for non-levy revenues reported for the general fund on the Trustees' Financial Summary. Please write up instances of improper coding of non-levy revenues in the general fund if discovered. Non-levy account numbers begin after revenue source 1116. Please refer to the School Accounting Manual and Budgeting Instructions for more specific definitions and information concerning non-levy revenues.
- b) There is high motivation for coding non-levy revenues using a code that is not restricted in the next year's budgeting process, such as "5300 Sale of or Compensation for Fixed Assets," "1110 District- Tax Levies," "6100 Prior Year Revenue Adjustments", etc. Coding non-levy revenues using unrecognized revenue codes, such as 1220, is also a potential problem.
- c) Non-levy revenues coded incorrectly on the Trustees' Financial Summary may cause levies to be set incorrectly and the state could over or under pay the district for Guaranteed Tax Base subsidies.

d) In budgeting for the general fund some general fund non-levy revenue sources must be estimated while most are still budgeted using actual prior year receipts (see Appendix C for list).

## 24. MATERIAL PRIOR PERIOD REVENUE ADJUSTMENTS, CANCELED WARRANTS, AND CANCELED PURCHASE ORDERS

- a) Please review the supporting documentation for year-end expenditures. Review prior period revenue adjustments, especially if the amount is material, to ensure this method was not used to "save" fund balance for the next year.
- b) By encumbering purchase orders, accruing expenditures, or writing year-end warrants for expenditures, districts use up the budget at year-end. When these items are canceled in the next year, the fund balance is restored by recording prior year revenue adjustments. There is motivation for districts to record accruals, warrants, and purchase orders they know will later be canceled; fund balance in excess of allowable operating reserves is thus "saved" from being reappropriated to fund the budget. If the lowered reappropriation caused increased levies and the district subsequently received an overpayment of GTB, the school must refund the overpayment to OPI.

#### **25.** TRANSFERS BETWEEN FUNDS (See Item 16 also)

- a) Section 20-9-208, MCA, allows limited transfers between funds. See Section 5-0500 in the School Accounting Manual for transfers specifically allowed by law. In addition to transfers specifically mentioned in laws, the following transfers may be made by trustees (A.R.M. 10.10.320):
  - No general fund transfers in or out are allowed, except as specifically allowed by law (e.g. compensated absences fund)
  - ii) Budgeted fund to budgeted fund
    - ✓ to improve efficiency of spending or to save dollars
    - ✓ <u>cannot</u> transfer voted levy dollars (Building Reserve, Debt Service, Technology Fund or Flexibility Fund)
    - ✓ transfer non-voted levy dollars "within or directly related to the purposes for which the funds were raised."
    - ✓ must hold a hearing before making the transfer
    - ✓ may transfer budget in an amount equal to the cash transferred or just transfer cash
    - ✓ cannot transfer money from the retirement fund
  - iii) Non-budgeted fund to non-budgeted fund
    - ✓ for efficiency of spending
    - ✓ cannot transfer state or federal funds that are restricted, including:
      - state and Federal grants
      - Impact Aid
      - state special education allowable costs funds
  - iv) Bus Depreciation to any fund after buses have been sold, at the discretion of the trustees. (20-10-147, MCA) The transfer must be approved by a vote of the people. An Attorney General Opinion request is pending regarding this

matter. See Appendix K for a copy of the AG Opinion Request.

See Appendix K, "Budget and Cash Transfers," for more information.

- b) Some school districts "clean out" year-end budget authority in the transportation and retirement funds. These schools send a letter to the county treasurer at year end asking that a lump sum transfer be made from these funds to the Impact Aid Fund or other funds to reimburse expenditures made from Impact Aid or other funds to correct "coding errors." This is acceptable if the expenditures made from the Impact Aid or other funds are truly for transportation or retirement. If they are not, the transfer is illegal and must be reversed.
- c) Effective FY2001, if the trustees of a district determine that its tuition fund is inactive and will no longer be used, the trustees shall close the fund by transferring any cash and account balances to the district's miscellaneous programs fund if the tuition fund does not have a cash or fund balance deficit. (20-9-201, MCA) Also effective FY2001, the trustees shall close inactive funds to any appropriate fund providing there is not a cash or fund balance deficit. (A.R.M. 10.10.319)
- d) Illegal transfers between funds should be reversed by the school district and the county treasurer. Please report any illegal transfer that has not been corrected from a prior audit.

#### **26.** TRANSPORTATION FUND (See APPENDIX B)

#### a) PAYROLL CHARGES

Many schools charge a portion of the superintendent's and clerk's salary and benefits to the Transportation Fund. Please audit whether the portion of an administrator's payroll costs charged to the Transportation Fund are reasonable. The portion of the person's time spent on transportation issues should approximate the portion of the person's salary charged to the transportation fund, in keeping with ARM 10.10.303 (APPENDIX F).

We have indications the percentages of administrator's salaries charged to the transportation fund are as high as 20%, even when very little or no time is spent on transportation issues. Motivation is very high to move costs inappropriately to funds to escape the general fund "caps." (This is also true in the School Foods Fund.)

#### b) <u>VEHICLE PURCHASES - Transportation Fund</u>

Please verify that the transportation fund purchased only yellow school buses that are used on school bus routes. Activities and athletics buses and non-bus vehicles must be purchased by the general fund or extracurricular activities fund. Replacement buses for activities and athletics can be purchased using the bus depreciation fund. The transportation fund cannot be used to purchase drivers' education cars or vehicles intended to be used for employee travel. The drivers' ed fund or general fund may purchase a drivers' ed car.

#### c) <u>ACTIVITIES, ATHLETICS, AND EMPLOYEE TRAVEL</u>

Costs of providing activities and athletic trips travel costs for employees must not be charged to the transportation fund. Again, shrinking budgets in general funds cause motivation to move these costs to other funds. We request your increased audit scrutiny.

#### 27. MONTHLY RECONCILEMENTS/ BUDGET REPORTS

- a) We have found that most districts who encounter serious financial problems do not reconcile to the county treasurer's balances monthly or do not prepare expenditure and revenue budget reports to monitor spending and receipts. Please determine whether monthly reconcilements and budget reports are done. If not done, or if not done timely, please note noncompliance with administrative rules and strongly recommend the reconcilements as necessary for good budget and accounting control.
- b) Monthly reconcilements are required by A.R.M. 10.10.501 (3). Budget reports are required by A.R.M 10.10.505.

#### 28. COMPENSATED ABSENCES LIABILITY FUND (CALF) TRANSFER

- a) Please refer to Section 5-1350 and 6-0200 of the <u>School Accounting Manual</u> for instructions on how to calculate the maximum balance and transfer that may be made from the general fund. The compensated absences fund limit at the end of the year is 30% of the liability as of 6/30 for administrative and non-certified staff. The liability for compensated absences for certified staff remains unfunded.
- b) The FY03 operating transfer from the General Fund to the CALF must be made within the FY03 general fund budget.
- c) The transfer out should be coded using expenditure code X01-999-61XX-910. The transfer in to the CALF is coded X21-5300.
- d) The fund can be used for payments to the retirement systems, FICA, and workers' comp for termination benefits paid for **non-certified/administrative personnel**. The CALF cannot be used to pay the employee severance pay, retirement bonuses, or any amount paid in lieu of employee contributions.
- e) Excess balances in the CALF must be transferred back to the general fund. The transfer should be made during closing. (ARM 10.10.312) An excess balance in the CALF at year-end means the general fund was shorted by the excess amount in budgeting for the next year. The possible effects include: 1) over levy on taxpayers; and 2) state overpayment of Guaranteed Tax Base subsidies if BASE mills were over levied. If the general fund operating reserve was not full (i.e., 10%), however, the excess could have been retained as reserves, causing no effect on mills or Guaranteed Tax Base subsidies.
- f) Special education cooperatives MAY NOT establish a CALF at this time. Section 20-9-512, MCA, provides transfers are only authorized from a school district's general fund. Cooperatives use a non-budgeted interlocal agreement fund. This law would have to be amended for cooperatives to establish a CALF.

#### 29. STUDENT EXTRACURRICULAR FUND (84)

The <u>Student Activity Fund Accounting Manual</u> is the authoritative source for accounting for student activity funds. You can request this manual from Lynda Brannon, Executive Director, Montana Association of School Business Officials (MASBO), One South Montana Avenue,

Helena, MT 59601, (406) 442-5599 or download from the MASBO website at <a href="http://www.masbo.com/Student%20Activity.PDF">http://www.masbo.com/Student%20Activity.PDF</a>. Please verify the schools you audit have this manual. Audit findings relating to the student activity fund should refer to this manual when a district is not in compliance.

#### 30. INTERNAL SERVICE FUNDS (73-79)

- a) Internal service funds for certain services are allowed when approved by OPI. See administrative rule 10.10.314 enclosed. Since cost recovery, not profit, is the goal of these funds, the balances of the funds should not exceed the amount reasonably needed to maintain the operation. OMB A-87 indicates accumulation of fund balance may be viewed by federal programs as the result of excessive charges to those federal programs. An accumulation in excess of 60 days of financial need may be an over-accumulation.
- b) There's no such thing as an "internal service asset depreciation" fund!! OPI does not consider an internal service fund established solely for accumulating money to replace equipment, an appropriate use of an internal service fund. In an internal service fund, all costs of providing a service, including asset depreciation, should be charged back to all user funds. For example, revenues without expenses in a fund indicate the fund is not appropriately allocating actual costs of providing a service (i.e., there should at least be depreciation expense). [ARM 10.10.314] Charging only the general fund for use of a copier is not appropriate, since an internal service operation should allocate costs among users, including federal projects.

The asset depreciation fund approach was proposed in the '93 and '95 legislative sessions and was rejected by legislators. It is obviously not legislative intent to allow the practice. Please DO NOT encourage the use of funds for this purpose, and do write up instances of inappropriate internal service fund usage.

- c) Self-insurance funds for health coverage should be established ONLY if there is an actuarially based self-insurance program. (2-18-702(5), MCA) An informal system is not allowable by law. Also, OMB Circular A-87, Attachment B, Number 25, requires that self-insurance contributions charged to Federal programs are allowable if the program is funded on a sound actuarial basis, "analyzed and updated at least biennially." Excessive balances or funds which are not currently used to support self-insurance programs should be returned to the originating funds or closed to the general fund as provided by Section 20-9-201, MCA.
- d) All self-insurance funds are required to be held with the county treasurer on behalf of the school (ARM 10.10.306). Unless a county attorney has given written approval, outside checking accounts for self-insurance are not authorized by law. Regardless of where funds are kept, the balances and annual activity of the coverage must be reported on the trustees' financial summary using fund 78 (health) or 79 (liability).

#### Thanks for your assistance!!

cc: Local Government Services Audit Division

## APPENDIX A ENROLLMENT / ANB AND ATTENDANCE

The method used to calculate Average Number Belonging (ANB) is the same as in the previous year. Enrollment reported to OPI in two semi-annual reports is used to calculate ANB that is used for state funding. ANB provisions are found in sections 20-9-311/314, MCA and Administrative Rules Title 10, Chapter 20, sub-chapter 1. Please return the enclosed order form if you need an enrollment count instruction sheet.

#### 1. GENERAL INFORMATION

- a) ANB funded in FY 2003-04 is calculated using an average of the enrollments on the first Monday in October, 2002, and February 3, 2003.
- b) When students are enrolled from out-of-district, they are counted for ANB and funded at the district where they attend.
- c) Students attending a special education cooperative are counted as enrolled in their regular district, which receives the ANB funding for them. Cooperatives do not report enrollments.
- d) Preschool enrollment is collected for statistical reports to the U.S. Department of Education. Preschool is not counted in ANB and is not funded by the state.
- e) Kindergarten pupils are reported as one enrolled student on the enrollment reports. When calculating ANB, OPI counts each kindergarten pupil as one-half ANB, as long as the pupil meets the hour requirement in (g) below.
- f) A pupil should not be counted as enrolled if the pupil has been absent (with or without excuse) more than 10 consecutive days unless the pupil resumes attendance by the day the enrollment count was made. Districts must drop kids from enrollment immediately when the student withdraws from school or is enrolled in another district. If the school has not received any indication the absent student has likely withdrawn, the district can consider an absent student enrolled on the count date if the student was in attendance for any length of time during the 10 school days before the count date.
- g) If a student is enrolled less than full-time, the district must include the student on the enrollment reports as enrolled AND as "part-time."
  - For Enrollment counted in October and February, part time and full time are judged on hours per year, as follows:

	Not "Enrolled"	<u>Part-time</u>	<u>Full-time</u>
<u>Grade</u>	for ANB	<b>Enrolled</b>	<b>Enrolled</b>

Kindergarten <180 hrs/yr N/A 180+ hrs/yr 1-12 <180 hrs/yr 180-359 hrs/yr 360+ hrs/yr

- All students are included in the enrollment count (include those "not enrolled" for ANB, part-time and full-time enrolled). OPI adjusts ANB as necessary to account for students attending an education program which is less than 180 hrs/yr or between 180-359 hrs/yr.
- h) 19 year-olds students MUST BE INCLUDED in the enrollment and attendance counts. OPI adjusts out 19 year-olds from ANB because state law continues to disallow state funding for 19 year-olds. 19 year-olds should not be reported as part-time even if following a part-time schedule.
- i) Districts are required to keep attendance (present and absent) records. Districts report attendance to OPI only on the 2 official enrollment count dates.

#### 2. AUDITING ANB/ENROLLMENT

Please verify the accuracy of the October and February enrollment counts and accompanying information reported to OPI. For example, for your audit of FY 2002-03, please verify the enrollment reports for October 2002 and February 2003. The ANB calculation is done by OPI and does not require additional verification by auditors. The attendance report is considered part of the enrollment report and is necessary to audit. Attendance (present and absent) data drives the state's funding from several Federal programs. If you discover problems with enrollment or attendance reporting, please have the district file amended enrollment reports as soon as possible. You are welcome to contact OPI for a copy of reports. Contact Tal Redpath at 444-3024 or tredpath@state.mt.us.

If the enrollment is overstated or understated, please disclose this as an audit finding so the district is required to respond.

An example of the format we prefer to appear in the audit report is enclosed. Please "write up" any differences you find. Most differences result in an overpayment or underpayment that must be corrected by OPI. Because of potential impacts on state funding, budgeting and GTB, we consider any enrollment difference to be material.

<u>If a difference is found in the October count</u>, the district must send OPI an amended fall enrollment report showing the correction to the appropriate grade, gender, and ethnicity, as well as the days present and absent.

If a difference is found in the February count, the district must send an amended spring enrollment report showing the correction to the appropriate grade in the school affected as well as the days present and absent.

September 30, 2002

TO: School District Officials

FROM: Tal Redpath, OPI Enrollment Specialist

RE: ENROLLMENT & ANB

This is an annual reminder of important enrollment and ANB issues. You may use it for reference when conducting student counts on this year's official count dates of October 7, 2002 and February 3, 2003.

#### **Part-time Students**

Part-time information is collected by OPI for the purpose of adjusting a district's ANB for students that do not attend full-time. The board of trustees of each district may set policy allowing less than full-time enrollment at the elementary or high school level. State law allows, but does not require, a school board to admit students less than full-time.

The key in determining part-time status is to look at the annualized hours of a pupil's program. The following chart summarizes reporting requirements for all students:

Grade and Annual Hours (of one pupil)	Report the pupil to OPI as Enrolled?	Also Report the pupil to OPI as a Part-time Student?	Does the District Receive ANB for the pupil?
Pre-Kindergarten (any hours)	Yes	No	No
Kindergarten (0-179 Hours)	Yes	Yes	No
Kindergarten (180+ Hours)	Yes	No	Yes (half)
Grades 1-12 (0-179 Hours)	Yes	Yes	No
Grades 1-12 (180-359 Hours)	Yes	Yes	Yes (half)
Grades 1-12 (360+ Hours)	Yes	No	Yes (full)

#### Part-time – Is it hours or periods?

Look at hours, NOT PERIODS, to determine part-time or full-time enrollment status. If a student attends only one 12<sup>th</sup>-grade class per day and that period is 45 minutes, then the student is an enrolled 12<sup>th</sup> grader, but also report him/her under the "Part-Time" Section as enrolled "less than 180 hrs/yr." The district would **not** receive any portion of ANB for this student.

A 12<sup>th</sup>-grader attending two 50-minute periods with a 4-minute passing time still does not achieve full-time status, but would provide the district with one-half ANB. This student would be reported as an enrolled 12<sup>th</sup>-grader, but also as a "part-time" student under the category "180-359 hrs/yr." Districts should set part-time enrollment policies with hours of *pupil instruction time* in mind.

#### Part-time Student Example

The tricky part of reporting part-time students is determining how to report <u>a student whose</u> <u>schedule changes during the year</u>. Consider this example:

Assume that Bobby Q. Public is enrolled as a 5<sup>th</sup> grader in your district and he attends school pursuant to the following schedule:

	<u>1<sup>st</sup> Semester</u>	2 <sup>nd</sup> Semester	<u>Total</u>
Days	90	90	180
Hours per Day	3 hrs/day	1 hr/day	
Total Semester Hours	270	90	360
Total Annual Hours / current program	<u>540</u>	<u>180</u>	

How is Bobby's enrollment reported to OPI? The answer: First semester (Fall count) Bobby is reported as full-time enrolled because the annualized hours for his program on that count date would be 540, and second semester (Spring count) Bobby is reported as part-time enrolled because the annualized hours would be 180 for this program.

Even though the example shows that Bobby's semester hours of instruction would total 360, he is part-time for the second semester. Look to the annualized hours of instruction for the program the student is following on the current count date independent from the hours accumulated under a program he/she followed on another count date.

#### **Attendance**

In general, absence of an enrolled student on the count date does not affect the enrolled status of the student. The exception would be if the count date were the 11<sup>th</sup> or more consecutive absence; in those cases, you <u>may not include</u> the student in your count to OPI. This applies to excused and unexcused absences [see 20-9-311(6), MCA and A.R.M. 10.20.102].

#### Attendance (cont'd)

Flexible scheduling that causes a class not to meet on the count date <u>does not affect enrollment</u> <u>or ANB</u>. Remember, the student's *enrollment status* on the count date affects ANB, *not attendance*. If a Pre-K or Kindergarten program or a flex-scheduled high school class does not conduct class on the count date, report presence/absence as of the next pupil-instruction day.

#### <u>Kindergarten and Pre-Kindergarten (Pre-School)</u>

To be eligible for ANB, a Kindergarten student that was not 5-years-old on or before September 10 of the current school year requires admittance through special permission of the board of trustees.

A full-day Kindergarten program qualifies for one-half ANB for each pupil, same as a half-day Kindergarten program that provides the minimum days and hours required by law. Similarly, an individual student that attends two sessions of Kindergarten (either 2 part-day sessions or both classes of an alternating day program) qualifies for one-half ANB as allowed by 20-9-311, MCA.

A Kindergarten pupil who is old enough for 1<sup>st</sup>-grade and is moved mid-year to a 1<sup>st</sup>-grade or pre-1<sup>st</sup> (transition-1<sup>st</sup>) program may qualify for full-ANB under the following circumstances. The student would have to meet the 1<sup>st</sup>-grade age requirement (6 years old on or before September 10 of the school year) and have completed Kindergarten in the first semester. If the pre-1<sup>st</sup> program is designed to provide at least 360 hours of pupil instruction per year, the student would count toward one full-ANB for the second semester.

A Kindergarten-age pupil (5 on or before Sept. 10) that is receiving services in the Pre-K (Pre-School) program may be counted as a Kindergarten pupil if an Individualized Education Program (IEP) requires the 5-year old to receive instruction and services in a pre-school setting (supervised by the Kindergarten program).

#### 19-year-old students (and older)

A district should include students that reached 19-years-old on or before September 10 (of the current school year) in the regular grade line in which the student is enrolled, and also in attendance and "Other Enrollment" sections of the blank OPI enrollment forms. This applies to 19-year-old Special-Ed students as well. Districts do not receive ANB for 19-year-olds. 19-year-olds should not be reported as part-time, even if they are following a part-time schedule.

#### **Alternative Programs**

If an accredited school provides an alternative program (example, the Project for Alternative Learning provided by the Helena High School District) its students will generate ANB for the district. Similar to other programs of the accredited school, the alternative program must be taught by certified teachers and students must be receiving school district credits.

#### **Adult Basic Ed (ABE)**

Even though an enrolled high school student and an adult basic education student may be attending the same classes or program, the enrolled high student cannot be included in ABE counts. Further, the enrolled high school student cannot be served using Federal ABE funds. Separate record keeping of program costs relating to the ABE students and regularly enrolled high school students is very important.

#### "10-Day Rule"

A district may include an absent pupil in its enrollment count if the OPI count date is less than the 11<sup>th</sup> consecutive absence, unless the student has been enrolled in another public school district or will not resume attendance according to verbal or written notification received by the district.

There is no 10-day "grace period" that allows a district to keep a student in an enrolled status if the district has knowledge that the student will not resume attendance.

OPI wants to clarify that the 10-day rule should be applied only for the purposes of the OPI enrollment count dates (i.e., to determine which students are includable or not includable in the enrollment for calculating ANB). OPI is not aware of any law, rule, or regulation that requires a district to routinely un-enroll or "drop" a student when the student reaches its 11<sup>th</sup> consecutive absence. Again, apply the 10-day rule only for the purposes of determining which students the district can include in the count.

#### **Montana Job Corps Students**

Under certain circumstances, a district may include job corps students in its ANB enrollment count. For the students to be eligible for inclusion in the count, the district must have entered into an interlocal cooperative agreement (Title 7, Chap 11, Part 1, MCA) with a Montana Job Corps Program accredited by the Northwest Association of Schools and Colleges.

Additional requirements for ANB-eligibility are: (a) the student must be enrolled in a public school in the student's district of residence, (b) the credits taken at the Job Corps Program require approval by the resident school district, (c) the credits meet the resident district's requirements for graduation at a school in the district, (d) the credits must be taught by an instructor who has a current Montana high school certification, and (e) the credits must be reported by the Job Corps Program to the student's resident school district [see 20-9-707, MCA].

#### **Students Placed in Private Education Programs**

Do not include students who are served by private education programs (i.e., not public school districts) in the counts on the Fall or Spring Enrollment Counts.

#### **Students Placed in Private Education Programs (continued)**

A district may apply to OPI for additional ANB for a student who is enrolled in the school district and is served in a private education program under a contract between the school district and the private education program if the following criteria are met:

(a) the student, who otherwise qualifies for ANB, is enrolled at district expense in the district on the count date; AND
(b) the district retains written verification from the contractor documenting the student's participation in the education program on the count date; AND
(c) either the contractor is accredited by the Montana board of public education, or the student's education program is under the direction and supervision of the district and is provided by district staff; AND
(d) the contractor is a facility, center, home or other program licensed by and located within the state of Montana, excluding licensed day care centers. (ARM 10.20.106)

The instances that allow ANB under these conditions are very rare. Contact me at (406) 444-3024 for an application.

NOTE: Contracts with private education programs are obligations of the district's General Fund or Federal grants, if program regulations allow the expense. Contracted services are not valid obligations of the district tuition fund.

cc: County Superintendents

#### **APPENDIX B - PUPIL TRANSPORTATION**

#### 1. HIGH SCHOOL RIDERSHIP

- a) Transportation laws passed in 1995 require a high school ridership count for the first five school days beginning on or after November 14 each year. Eligible high school students who ride on ONE MORNING on ONE OF THOSE DAYS may be included as eligible riders for purposes of the district's eligibility for state and county reimbursement for the bus.
- b) The eligible transportee counts on buses (form TR-2 or the district's equivalent list) cannot be easily verified. **OPI does not expect auditors to attend and verify that count.** Please inspect the <u>documentation</u> of high school counts to verify the process provides a reasonable basis for the counts reported to OPI on bus route forms TR-1. NOTE: The high school ridership count is required for FY03 but has been discontinued for FY04.

#### 2. ELIGIBILITY FOR FUNDING

The following areas affect eligibility to state transportation funding. Please check:

- a) Miles claimed by parents on TR-4 individual contracts are being verified by the school;
- b) Days of attendance claimed by the district on the TR-5 claim for each holder of a TR-4 individual contract match attendance records;
- c) Payees listed on the TR-5 claims are really receiving payments (i.e., are not fictitious contract holders); and
- d) Bus drivers' certificates (TR-35) are accurately completed (i.e., the driver really has an up-to-date drivers' license, first aid certificate, and physical when the certificate is approved by the school personnel).

#### 3. COUNTY REIMBURSEMENT

OPI distributes state transportation reimbursements to districts through counties. The school district's share of the reimbursement should be reported separately as a state revenue source. Normally, state and county transportation reimbursements are equal amounts.

The state sends semi-annual payment advice sheets to districts recapping the state and county shares of the reimbursement payment. Counties should have paid the district NO MORE THAN the amount shown on that advice. Some counties incorrectly pay the budgeted county reimbursement rather than the lower amount claimed, resulting in county overpayments. Please verify the district received the correct county reimbursement and the amount was recorded correctly as county transportation revenue. Any overdistribution by the county should be for underpayments from a prior fiscal year.

#### 4. BUS DEPRECIATION FUND

The Bus Depreciation Fund can be used for: a) purchase, conversion, remodeling and replacement of yellow school buses; and b) **remodeling** and **replacement** of activity/athletics **buses**. Please verify:

a) The bus depreciation fund levy does not exceed 20% of the cost of the bus and up to 150% over time:

- b) The costs of the buses are accurately shown on the budget form;
- c) The fund is used for replacement of existing buses. The fund can purchase additional <u>yellow school buses</u> effective 7/1/99 due to legislative change. Additional activities buses cannot be purchased using the fund; the general fund or extracurricular fund must be used to purchase activity buses; and
- d) The fund is used only for buses and bus remodeling. Policy allows the installation of video cameras as "remodeling" in this fund.
- e) Cars, suburbans, minivans, etc. do not meet the definition of "buses" and cannot be purchased using this fund.

Districts will usually be required to repay the bus depreciation fund for findings of unallowable expenditures, such as car and truck purchases.

#### **APPENDIX C - NON-LEVY REVENUES** FOR FY03

Budgeting Non-Levy Revenues for the General Fund
Use this worksheet to estimate General Fund Non-Levy (i.e., non-tax) resources for the FY2002-03 budget (20-9-141,MCA)

Revenu e Description		Comments	FY2002-03 Budgeted Revenue Amount

**USE ONLY** 

#### **APPENDIX F - ARM 10.10.303**

**10.10.303 COST ALLOCATIONS BETWEEN DISTRICTS** (1) In the event certain shared costs, such as administrative costs, curriculum coordinator salaries, school psychologist salaries, etc., cannot reasonably be identified directly to either the elementary district or the high school district or between funds within a district, the school district administration shall prepare a cost allocation plan for approval by the board of trustees prior to adoption of the final budget. The cost allocation plan should reasonably distribute such costs between districts and funds within a district, consistently from year to year. Shared costs shall be budgeted and accounted for in accordance with the cost allocation plan approved by the board of trustees.

- (2) The following allocation bases shall be used to allocate shared costs:
  - (a) ANB or enrollment per district;
  - (b) Full time equivalent (FTE) staff per district;
  - (c) FTE teaching staff per district;
  - (d) Floor space occupied or space occupied over time per district;
  - (e) Miles driven, student miles driven, driver hours per district;
  - (f) Students served per district;
  - (g) Taxable valuation per district; or
  - (h) Time spent providing services.
- (3) As provided by 20-6-506, MCA, the cost of operating the junior high school must be prorated between the elementary district and the high school district on the basis of the ratio that the number of pupils of their district is to the total enrollment of the junior high school.
- (4) As provided by 20-4-401, MCA, whenever a joint board of trustees employs a person as the district superintendent under (2) and (3), the districts shall prorate the compensation provided by the contract of employment on the basis of the number of teachers employed by each district. (History: Sec. 20-9-102, 20-9-201, MCA; IMP, Sec. 20-9-102, 20-9-103, 20-9-201, MCA; NEW, 1990 MAR p. 717, Eff. 4/13/90; AMD, 1998 MAR p. 1719, Eff. 6/26/98.)

#### APPENDIX G – EXCESS RESERVE CHANGES FROM FY02 TO FY03 BUDGETS

#### **FUND BALANCE**

Please verify the amount of unreserved fund balance reappropriated used in budgeting each fund is supported by the accounting records. See MATERIAL PRIOR PERIOD REVENUE ADJUSTMENTS, CANCELED WARRANTS, AND CANCELED PURCHASE ORDERS discussed above in "Items to Check When Auditing the Trustees' Financial Summary."

#### **EXCESS GENERAL FUND RESERVES**

#### 1) Documentation

Districts that designate excess reserves in the general fund budget must retain documentation to support the amounts. The reserves are limited in section 20-9-104(5), MCA, to the <u>unused</u> portion of certain types of receipts. If a school district designated excess reserves, OPI requires the district to submit a Schedule of Changes in Excess Reserves (see page 36 of the Budget Instructions) with the budget. If a MAEFAIRS user, this information is included on the General Fund Reserves tab.

#### 2) Auditing Excess Reserves

Please verify the additions to excess reserves reported on the FY2002-03 budget are valid current year receipts of prior year protested/delinquent taxes or tax audits.

#### 3) Other Information

- a) Operating reserve must be the greater of 10% of adopted budget or \$10,000 before any excess can be held.
- b) Districts must keep adequate records to prove receipts of protested/delinquent taxes were due before June 30 of the prior year. Current year taxes received late do not qualify as excess reserves. Inadequate documentation should cause the validity of excess reserves to be questioned.
- c) Interest earned on the holding of excess reserves is <u>not</u> a valid addition to excess reserves.

#### 4) Invalid Excess Reserves

When invalid excess reserves are noted in audits, OPI recalculates the funding effects and may require overpayments to be repaid to the state.

"Used" means: a) used for budget amendments; b) used to fill the operating reserve back to 10%; or c) used to fund the budget through reappropriation.

Excess reserves are important in budgeting because they represent a funding source which, if not reserved, would be available to reappropriate and lower tax levies. Since the state pays Guaranteed Tax Base (GTB) subsidies on general fund mills to districts that qualify, overlevied mills may have caused an overpayment of GTB.

Notify Bonnie Maze at OPI (444-3249 or <a href="mailto:bmaze@state.mt.us">bmaze@state.mt.us</a>) when an unsupported excess reserve is identified in a district that qualified for GTB subsidies.

## **APPENDIX G** LIST OF DISTRICTS WITH EXCESS RESERVES ON FY 2002-2003 BUDGET

Auditor - Are additions supported by current year receipts of:

2002

- protested or delinquent taxes billed in a prior year;
   tax audit money

2002

Additions show as positive.

Reductions show as negative.

### APPENDIX H

### SUMMARY – ADMINISTRATIVE RULES - CHANGES EFFECTIVE FY03

- 10.20.106 STUDENTS PLACED IN EDUCATION PROGRAMS (1) The office of public instruction recognizes that a Montana state agency or court may place a Montana student in a facility located within a school district that is not the student's district of residence. The office of public instruction also recognizes that a district may contract with a private or public entity for the provision of a Montana student's education. If a district contracts and pays for the provision of a Montana student's education, the district may include that student in the district's enrollment count for purposes of calculating ANB, provided:
- (a) the student, who otherwise qualifies for ANB, is enrolled at district expense in the district on the count date;
- (b) the district retains written verification from the contractor documenting the student's participation in the education program on the count date;
  - (c) either:
- (i) the contractor is accredited by the Montana board of public education; or
- (ii) the student's education program is under the direction and supervision of the district and is provided by district staff or is provided pursuant to a special education individualized education program implemented by the district. This provision will be applied retroactively to July 1, 2002; and
- (d) the contractor is a facility, center, home or other program licensed by and located within the state of Montana, excluding licensed day care centers.
- (2) Payments made to contractors described in (1) are not considered tuition for purposes of applying the provisions in Title 20, chapter 5, part 3, MCA. When a district contracts for a Montana student's education, the cost for such services shall be paid from the district's general fund or from federal funds, provided the cost is an allowable use of the federal funds. Districts shall not use the tuition fund for payments to private education programs.
- (3) If a student is not a resident of the district of attendance, the district may charge tuition in accordance with Montana law (see ARM 10.10.301).
- (4) In accordance with 20-7-422, 20-7-402(4) and 20-5-323(5), MCA, when a child is placed by a Montana state agency in an out-of-state residential facility, the state agency making the placement shall be responsible for paying the education costs of the placement. (History: Sec. 20-7-419, MCA; IMP, Sec. 20-5-321, MCA; NEW, 2002 MAR p. 1662, Eff. 6/14/02; AMD, 2003 MAR p. 395, Eff. 3/14/03.)

### APPENDIX K

### **Budget and Cash Transfers**

In addition to MCAs, ARM 10.10.320 provides guidance on Budget and Cash Transfers:

# A.R.M. 10.10.320: <u>CASH AND BUDGET TRANSFERS BETWEEN SCHOOL DISTRICT</u> <u>FUNDS</u>

- (1) Trustees may transfer cash between funds only if the transfer is specifically allowed by law or administrative rule.
- (2) Trustees shall hold a properly noticed hearing to accept public comment on a transfer before the transfer can occur, except the following cash transfers:
  - (a) transfers from the general fund to the compensated absences fund under 20-9-512, MCA, or transfer of an excess balance in the compensated absences fund to the general fund;
  - (b) transfers of unused employer contributions for self insurance group coverage allowed by 2-18-703, MCA;
  - (c) transfers from the general fund to the litigation reserve fund and, upon settlement of the litigation, a transfer returning the balance to the general fund under 20-9-515, MCA;
  - (d) transfers between the federal impact aid fund and the debt service fund under 20-9-437 and 20-9-443, MCA:
  - (e) transfers from any fund, except the miscellaneous programs fund, to support an interlocal agreement fund under 20-9-703, MCA;
  - (f) closure of district funds to establish a non-operating fund under 20-9-505, MCA; and
  - (g) transfers of any portion of the balance of a bus depreciation fund approved by the voters as provided in (4).
- (3) The trustees shall not transfer cash from the district retirement fund, which is funded by a countywide levy, to any other fund.
- (4) Pursuant to 20-10-147, MCA, when all the buses of a school district have been sold or otherwise disposed of, trustees may transfer any portion of the bus depreciation reserve fund balance to any other fund of the district contingent on voter approval.
- (5) Trustees shall not transfer any portion of the balance in the debt service fund to another fund, except to close the fund after fully paying all obligations as provided in 20-9-443, MCA.
- (6) Except for the general fund, retirement fund, debt service fund, and bus depreciation fund, trustees may transfer any portion of the cash balance in a budgeted fund to another budgeted fund for any purpose allowed by law, provided the money being transferred is comprised of revenue from sources other than tax receipts. Trustees may transfer tax revenues from one budgeted fund to another budgeted fund, provided the money is subsequently expended for purposes the same as, or directly related to, the purposes for which the taxes were levied. When tax receipts are transferred, the trustees' resolution shall state the purpose for which the taxes were levied and the purposes for which the funds will be used.
- (7) Trustees shall not transfer cash received through state and federal grants and contracts.
- (8) Trustees may transfer any portion of the cash balance in a nonbudgeted fund of the district. The trustees' resolution shall state specifically how the transfer will be used to improve efficiency of spending within the district.

### FUNDS cont'd

- (9) Except when specifically provided by law, trustees may not transfer money between a budgeted fund and a nonbudgeted fund.
- (10) When the trustees transfer cash from one budgeted fund to another budgeted fund, the trustees may also transfer budget authority up to the amount of the cash transfer, from the paying fund to the receiving fund.
- (11) Within 30 days of approving the transfer, the trustees shall notify the state superintendent, county superintendent, and county treasurer in writing of the amount of budget authority and the amount of cash transferred, the purposes for which the amount transferred will be used, and the funds affected.

# APPENDIX L Attorney General Opinion Request Regarding Transfers from the Bus

**Depreciation Fund** 

Re: Request for Attorney General Opinion -- Transfers from Bus Depreciation Reserve Funds

Dear Attorney General McGrath:

Pursuant to Mont. Code Ann. §2-15-501(7), I hereby request your opinion concerning the following question:

May school district trustees transfer a portion or all of the cash balance from the district's bus depreciation reserve fund to another budgeted fund of the district under the provisions of Mont. Code Ann. §20-9-208(2) or close the fund to any other fund of the district under Mont. Code Ann. §20-9-201(3) regardless of whether the district has sold all its buses and submitted the proposition to voters under the conditions of Mont. Code Ann. §20-10-147(4)?

As with most school finance issues, this question involves a number of complicated school finance laws. As background, I provide the following.

Mont. Code Ann. §20-10-147 authorizes a school district that owns at least one bus to establish a "bus depreciation reserve fund" (the Bus Fund). The main purpose of the Bus Fund is to accumulate property tax receipts over the life of district-owned buses for the replacement of those buses in the future. (Periodic replacement of buses is recommended by the national pupil transportation industry as a necessary component of school bus transportation safety.)

According to Mont. Code Ann. §20-10-147, money in the Bus Fund may also be used to convert, remodel or rebuild a bus, or to purchase an additional bus. The Bus Fund is supported by a permissive (non-voted) local property tax levy. The amount of each year's levy is limited to twenty percent (20%) of the original cost of the bus. Over time the amount levied may not accumulate to more than one hundred fifty percent (150%) of a bus' original cost. The fund is defined as a budgeted fund under Mont. Code Ann. §20-9-201(1)(a).

Prior to October 1, 1997, section 147(4) allowed school district trustees to transfer any portion or all of the cash balance in the district's Bus Fund to any other fund of the district after obtaining voter approval. In the 1997 Legislative Session, SB 244 (Ch 238 August 2003 46 Appendix L

Montana Session Laws 1997) amended this section to add the condition that trustees must sell all of the district's buses before transferring money out of the fund.1

Another law, Mont. Code Ann. §20-9-201(3) allows trustees, "[e]xcept...as otherwise provided by law," to determine that a school fund "is inactive and will no longer be used" and close the fund. Prior to April 2001, section 201(3) allowed the trustees to close an "inactive" fund to the district's general fund only. Effective July 1, 2001, the Legislature, via SB 436 (Ch 480 Montana Session Laws 2001) amended this section to give trustees the discretion to close an inactive fund into any other fund of the district.

Mont. Code Ann. §20-9-208(2) authorizes certain types of transfers of money between funds of a school district, subject to other, more specific provisions regarding transfers in Mont. Code Ann. Title 20. Prior to July 2001, section 208(2) prohibited transfers between funds of the district "except as specifically provided by" Title 20. Effective July 1, 2001, the section was amended by SB 436 (Ch 480 Montana Session Laws 2001) to provide that "Unless otherwise restricted by a specific provision in this title, transfers may be made between different funds of the same district" under one of several listed circumstances. Mont. Code Ann. §20-9-208(2). Transfers of budget authority and cash are allowed from one budgeted fund to another budgeted fund, providing that "Transfers may not be made with funds approved by the voters or with funds raised by a non-voted levy unless the transfer is within or directly related to the purposes for which the funds were raised." Mont. Code Ann. §20-9-208(2)(a)(i).

In 2002, OPI adopted Administrative Rules implementing the fund closure and cash transfer provisions in sections 20-9-201 and 20-9-208, as amended by SB 436. Pertinent Administrative Rules are:

Admin. R. Mont. 10.10.319(4) "Pursuant to 20-10-147, MCA when all the buses of a district have been sold or otherwise disposed of, trustees may close a bus depreciation reserve fund to any other fund of the district contingent on voter approval."

Admin. R. Mont. 10.10.320(4) "Pursuant to 20-10-147, MCA, when all the buses of a school district have been sold or otherwise disposed of, trustees may transfer any portion of the bus depreciation reserve fund balance to any other fund of the district contingent on voter approval."

In public comment to OPI's proposed rules noted above, the Montana School Boards Association (MTSBA) objected to the proposed rules' restriction on transfers from the bus depreciation fund (see "MTSBA Interpretations" below). OPI considered MTSBA's comments and concluded that the proposed rules were a correct interpretation of the statutes involved and of legislative intent. The rules were

August 2003 47 Appendix M

<sup>1</sup> SB 244 amended 20-10-147(4) as follows: "Whenever the trustees of a district maintaining a bus depreciation reserve fund sell all of the district's buses and consider it to be in the best interest of the district to transfer any portion or all of the bus depreciation reserve fund balance to any other fund maintained by the district, the trustees shall submit the proposition to the electors of the district. The electors qualified to vote at the election shall qualify under 20-20-301, and the election must be called and conducted in the manner prescribed by this title for school elections. If a majority of those electors voting at the election approve the proposed transfer from the bus depreciation reserve fund, the transfer is approved and the trustees shall immediately order the county treasurer to make the approved transfer."

adopted and published as originally proposed. However, OPI inadvertently included a draft affirmative response to MTSBA's comment in the final adoption notice.2 The inadvertent inclusion of draft language that did not accurately reflect the final Rule as adopted and created confusion, which OPI's legal staff regrets.

The sequence of Legislative amendments, coupled with the "except as otherwise provided by law" language, leaves OPI and MTSBA disagreeing on the operation and interplay of Mont. Code Ann. §§20-9-208 and 20-10-147.

OPI interprets section 20-10-147(4) to require that all the buses belonging to a district be sold prior to transferring tax receipts out of the Bus Fund, regardless of whether or not the fund is subsequently closed. By allowing transfers from the Bus Fund only after a district has sold all of its buses, the law ensures that taxes levied for bus replacement remain available for that purpose as long as the district has buses that may require future replacement. In other words, if money in the Bus Fund is transferred to another fund and expended while the district still owns buses, taxpayers may later be required to pay taxes a second time for replacement of those buses. Section 20-10-147 protects the taxpayer by preserving taxes raised for bus replacement as long as the potential need exists, and by allowing the voters to approve an alternative use of their tax dollars only after all buses have been sold.

Transfers under section 20-9-208 and fund closures under section 20-9-201 are subject to restrictions imposed by other sections of Title 20. Section 20-9-201(3) states that "Except...as otherwise provided by law," trustees may determine that a fund "is inactive and will no longer be used," and close the fund. Section 20-9-208(2) authorizes certain types of transfers of money between funds of a school district, "Unless otherwise restricted by a specific provision

#### "New Rule VII Closure of a School District Fund

COMMENT NO. 9: One commenter stated that this rule defines an inactive fund in a more restrictive manner than provided by law, in that the law provides that the decision on determining when a fund is inactive rests with the trustees. He recommends that the provision in (1) be stricken. The commenter also argued that (5) is more restrictive than Senate Bill 436 intended and should be removed.

RESPONSE: The Superintendent agrees that the determination of when a fund is inactive is a judgment left to trustees pursuant to 20-9-201(3) (a), MCA and amends New Rule VII accordingly. The Superintendent believes that 20-10-147(4), MCA is limited to situations in which Trustees sell <u>all</u> the district's buses and does not necessarily address the closure of the bus depreciation reserve fund. Closure of such fund is now governed by 20-9-201(3), MCA." (Emphasis added).

The italicized language was from an earlier, internal draft used for discussion purposes within OPI. It reflected the MTSBA arguments concerning the statutory changes and the proposed rules. It did not accurately describe or interpret the Rule as adopted.

<sup>2</sup> In the Comment and Response part of the OPI Notice of Adoption of these Rules, this language was included:

in" Title 20. We believe that the more specific laws limiting transfers between funds and the closure of funds prevail over the more general provisions of sections 20-9-208 and 20-9-201. Section 20-10-147 specifically limits transfers of money from the bus depreciation fund by imposing certain conditions.

In adopting Administrative Rules to implement the SB 436 amendments to sections 20-9-201 and 20-9-208, OPI attempted to clarify the relationship of those laws with other laws that govern school district transfers between funds. The rules list more specific provisions in Title 20 that prevail over the provisions in 20-9-201 and 20-9-208. See Admin. R. Mont. 10.10.319(4) and 10.10.320(4) above. These rules state OPI's interpretation that all transfers from the Bus Fund, including transfers upon fund closure, are subject to the conditions in section 20-10-147.

This professional disagreement between OPI and a constituency group with which we work closely and enjoy a good relationship involves the use of local property tax dollars levied for the replacement of school district buses. As an issue of pupil transportation safety and public funding for schools, it is a significant concern for the State. Consequently, I bring this question to the Attorney General for resolution.

If my staff or I can provide additional information, please do not hesitate to contact us. I look forward to and will follow your opinion in this matter.

Sincerely,

Linda McCulloch Superintendent

c: Lance Melton, Executive Director, MTSBA
